About BVCOE

Bharati Vidyapeeth's College of Engineering is a pioneer institute affiliated to the Guru Gobind Singh Indraprastha University. Our vision is to create a world renowned technical education center by imparting quality education to the students belonging to all sections of society and inculcating in them the quality of leadership and executive competence to face global challenges.

About the Seminar

India is facing an acute energy scarcity which is hampering its industrial growth and economic progress. Setting up of new power plants is inevitably dependent on import of highly volatile fossil fuels. Thus, it is essential to tackle the energy crisis through judicious utilization of abundant the renewable energy resources, such as biomass energy, solar energy, wind energy and geothermal energy. Apart from augmenting the energy supply, renewable resources will help India in mitigating climate change.

The seminar reviews the current trends & developments in the field of new and renewable energy resources. The main objective of the seminar is to provide an effective and established forum for discussion and dissemination of renewable energy at higher education level. The seminar will provide a platform and enable interaction among the Information Professionals, Researchers, Academicians and Students for adopting, implementing and utilizing new technologies in this field.

About IT Department

The Information Technology Department of BVCOE has excellent infrastructure and experienced faculty members on its roll to impart high quality education to students. It has consistently maintained high level of academic and research standards.

About R & D Cell

R & D Cell provides an effective and established forum for discussion and dissemination of research. It also focusses on multidisciplinary approach to problem solving in various fields. R & D Cell works to support Ph.D. scholars in their research activities, project proposals, and in writing research papers for national and international journals and conferences.
